

Muhammad Umar Saif

MERN Stack Developer

Lahore, Pakistan | 0309-1416454 | umarsaif.dev@gmail.com

[LinkedIn](#) | [Github](#)

Full Stack Developer with 1 year of experience building web applications using the MERN stack. Proficient in React.js, Node.js, Express.js, MongoDB, and PostgreSQL, with hands-on experience in REST API development, JWT-based authentication, and responsive web design. Skilled in Git-based version control and delivering full-stack solutions from development to deployment.

TECHNICAL SKILLS

Front-End: HTML5, CSS3, JavaScript (ES6+), TypeScript, React.js, Redux Toolkit, React Hooks, React Router, Tailwind CSS, Bootstrap

Back-End: Node.js, Express.js, RESTful API Design, JWT Authentication, Bcrypt, Middleware, MVC Architecture

Databases: MongoDB, Mongoose ODM, PostgreSQL, Prisma ORM, MySQL

Tools: Git, GitHub, Postman, Axios, Multer, Nodemailer, Cloudinary, Socket.io, pgAdmin, MongoDB Compass, VS Code

Practices: Agile/Scrum, Version Control (Git), API Testing, Debugging, Code Reviews

EXPERIENCE

Web Development Intern | Qalam Training Program

August 2025 – Present

- Built and consumed RESTful APIs using Node.js and Express.js with full CRUD operations, middleware validation, and MVC architecture; tested all endpoints via Postman
- Developed responsive React.js interfaces with Tailwind CSS and integrated frontend with backend using Axios; implemented JWT and Bcrypt authentication across 3+ projects
- Managed MongoDB and PostgreSQL databases; applied query optimization and handled data flow across full-stack applications

PROJECTS

Pets Veta — Pet Care Marketplace & Vet Appointment System

Tech Stack: React.js, TypeScript, Tailwind CSS, Node.js, Express.js, PostgreSQL, Prisma, JWT, Cloudinary

- Developed a full-stack pet care platform featuring an e-commerce marketplace, vet appointment scheduling, AI-powered chat assistance, and admin dashboard with analytics
- Implemented role-based authentication (pet owners, doctors, admin) using JWT for secure access control
- Designed separate modules for marketplace, doctor approval workflow, and services using PostgreSQL and Prisma
- Created responsive frontend with React.js, TypeScript, and Tailwind CSS with protected routing

Public Hub — Social Media Application

Tech Stack: React.js, Node.js, Express.js, MongoDB, JWT, Bcrypt, Socket.io, Multer, Cloudinary

- Built a fully functional social media application with user authentication, post creation, likes, comments, follow system, and real-time notifications
- Integrated Cloudinary for media storage and Multer for handling image/video uploads from the frontend
- Added real-time functionality using Socket.io for instant user interactions and notifications

Student & Teacher Management System

Tech Stack: React.js, Node.js, Express.js, MongoDB, JWT, Bcrypt, Nodemailer, Socket.io

- Designed and developed a full-stack system to manage students, teachers, and course records
- Implemented JWT authentication, Bcrypt hashing, Nodemailer email alerts, and Socket.io real-time updates

Skill Swapper — Skill Sharing Platform

Tech Stack: React.js, Node.js, Express.js, MongoDB, JWT, Socket.io, Multer

- Built a full-stack skill exchange platform where users can create profiles, add skills, and send or manage swap requests
- Implemented authentication, OTP verification, profile uploads, real-time chat, booking, reviews, and admin management

EDUCATION

BS Computer Science

2022 – 2026

University of the Punjab

SOFT SKILLS

Problem Solving • Team Collaboration • Quick Learner • Critical Thinking • Strong Communication • Time Management
